### Kashmir issue, a looming nuclear war threat over South Asia

A book that has been read but is in good condition. One, China reportedly did not detail any to sell more reactors to Pakistan when it first joined the NSG in 2004.

### Emerging Technologies as potential Risks to Arms control in South Asia

A chain is only as strong as its weakest link, and with Islamabad set to expand its arsenal, this vulnerability will only deepen. South Asia is a fragile region. The Karachi Nuclear Power Plant-1 KANUPP-1 started commercial operations in 1972 under International Atomic Energy Agency IAEA facility specific safeguards.

### India and Pakistan: how much of a nuclear threat do they pose?

The last thing either government, or the world, needs is a mushroom cloud. The enmity between India and Pakistan is deeply rooted since their independence.

### Kashmir issue, a looming nuclear war threat over South Asia

After the initial shock of French-led cancellation of uranium reprocessing plant, Pakistan quickly progressed in enrichment capabilities under Dr Abdul Qadeer Khan, and during Zia era, the country eventually obtained bomb-grade material. In this way series of 6 nuclear testing by Pakistan was accomplished. It is because both countries have convergence of interests when it comes to strategic policy in the Indo-Pacific region.

### Threat to South Asia... India

Quoting the US intelligence agencies the report stated that the China National Machinery and Equipment Import and Export Corp.
