### The Computer User's Yearbook (October 1999 edition)

Since opening at the end of 2013, over 5,000 children have visited the Centre. These children deserve a space which is engaging and instructive, where they can feel a sense of adventure, exploration and surprise! Two tables are given: one for computer installations by number, import value, and home built value in sixteen European countries, and another for computer installations in the United States. Digital computers, electronic calculators, analog computers, peripheral equipment, and data transmission equipment available in Europe are then listed.
