As kids get older, they become savvy to the implications.

### **Positive Parenting: Encourage or Praise?**

For example, an instructor may choose to praise a student in front of a class or work group or may instead deliver that praise in a private conversation or as written feedback on the student's assignment. In fact, the problem may be that these students need only to apply more effort or use different strategies in order to succeed. This will create a dysfunction of association with pleasure and praise from the parents.
