The Geneva Institute of International Relations served as an intermediary between the League and the growing subject of International Relations on

the level of Universities. The moral economy of sharing necessitates a muscular egalitarianism that is undermined by the accumulation of property. In addition to providing the legal and political framework for issuing currency and administering markets, states erect infrastructure and manage the production and circulation of labour power.

Reset the economy

Explaining the growth paradigm Among those who offer explanations for the growth paradigm, two arguments are commonly encountered. Logics of accumulation Logics of accumulation — and, in the loosest sense, growth — were not initiated until the Neolithic revolution. Williams, Chris, 2010, Ecology and Socialism Haymarket.
