Most types penetrate the soil only to a very limited extent, but they have been used by archaeologists to locate dispersed metal artefacts—for example, a hoard of Roman coins scattered by ploughing.

Was There a Trojan War?

A: Slight surface variations, which might not be apparent to an observer on the ground, are enhanced by highlights and shadows produced by low sunlight in the early morning or evening. So outsiders avoid confrontation and insiders embrace drift. The Coyl and Ford-Messer bequests proved to be a great boon to the Library.
