### Building Your Support Network

Draft sustainability plans for infrastructure concerns that include upgrades of wired and wireless access as well as device refresh plans and sustainable funding sources while ensuring the safety and protection of student data. The plan should incorporate strategies based on scientifically based research that will strengthen the core academic subjects in the school and address the specific academic issues that caused the school to be identified for school improvement.

### Infrastructure

As state and local education institutions work to bridge the existing digital divide, they concurrently should be drafting plans for the upgrade of infrastructure necessary to meet the needs of increased user demand as well as speeds necessary for the use of evolving technologies. BCPS uses several communication outlets to provide information regarding S.

### Building Education Systems to Support the Development of 21st Century Competencies

One way to jump-start your resurgence is to examine your social network for clues about how to get back on track. Forge Better Connections The best way to break through the barriers created by the self-similarity and proximity principles is by using the shared activities principle. During this meeting, which took place in November 2015, it became clear that despite differences in the cultural and policy contexts across these six cities, there were also many common threads in how leaders approached the effort to building and sustaining a system-wide commitment to helping youth develop, practice, and master these competencies.

### Building Community

Generally, when a school site participates in the IBC project, one Capacity Builder is assigned to the district office, and one to each of the school sites.

### How to Build Your Network

You can also visit , a website of the U. School-community partnerships can interconnect together many resources and strategies to enhance

communities that support all youth and their families. Strands of Study Principals participate in a balance of content, professional conversation, and collegial instructional rounds related to instructional leadership, managing change, and improving the overall effectiveness of the Instructional Core.

**How to Build Your Network**

There are so many opportunities to find community at OSU! Asia Society's Center for Global Education convened a working group of leaders from six cities in Asia and in North America to discuss approaches to building education systems that support the development of 21st century competencies. This website provides information of a general nature and is designed for information and educational purposes only and does not constitute medical or legal advice.
