Standard Arithmetic

A series is defined as the sum of the terms of a sequence. Also, though I won't vote down this answer, I agree with Jason S that there can be numerical problems in this approach. The two original values are known as the multiplicand and the multiplier, or simply both as factors.

How do I perform arithmetic in a makefile?

On row 3, we simply do not have 10 prior data points. Possible writing in margins, possible underlining and highlighting of text, but no missing pages or anything that would compromise the legibility or understanding of the text.
